Anthelmintic in poultry, Field trials with hygromycin as an (Frazier) 478
Antibiotics with terephthalic acid and low dietary calcium, Potentiation of tetracycline (Cover, Benton, Greene, and D'Armi) 353
Arizona, Serotypes of Salmonella and, organisms in animals: 1958 (Moran) 440
Aspergillosis experimentally produced in hatching chickens. (O'Meara and Chute) 404
Avian encephalomyelitis immunization with inactivated virus. (Schaaf) 245
Avian encephalomyelitis, Studies on I. The use of a serum-neutralization test in the detection of immunity levels (Calnek and Jehnich) 95
Avian encephalomyelitis, Studies on, II. Immune responses to vaccination procedures. (Calnek and Jehnich) 225
Avian encephalomyelitis virus in a chicken embryo kidney cell culture system, Plaque formation of (Hwang, Luginbuhl, Jungherr). Abstract 484
Avian encephalomyelitis virus, The development of a chicken embryo strain of, (Moore and Flowers) 239
Avian infectious hepatitis III. Treatment of chickens in egg production (Sevoian and Calnek) 302
Blood cells, Staining fixed preparations of, with combination May-Greenwald-Wright-Phloxine B stain. (Cook) 272
Botulism type C outbreak on a pheasant farm, Case report, (Vadlamudi, Lee, and Hanson) 344
Cage layer fatigue (Grumbles) 122
Calcium, The influence of dietary, phosphorus and terephthalic acid on antibiotic control of experimental infectious synovitis (Price and Zolli) 135
Chicken embryo lethal orphan virus, The relationship between quail bronchitis virus and, (DuBose and Grumbles) 321
Chronic respiratory disease in chickens, The effects of antibiotics on experimental. (Olesiuk and Van Roekel) 457
Chronic respiratory disease, Control of. I. The effects of chlortetracycline (CTC) and terephthalic acid (TPA) (Olson, Shelton, Heishman) 443
Coliform peritonitis of chickens (Gross and Siegel) 370
Contaminants, bacterial, Detection of, in live virus poultry vaccines (Hejl and Faber) 41
CRD, The Therapeutic value of terramycin-TPA on. (Weston, Strout, Beckman) Abstract 486
Dehydrogenases, Transaminases and, in chicken plasma (McDaniel and Chute) 407
Equine encephalomyelitis in pheasants in Florida, A case report (Simpson, Lewis and Jaquette) 89
Hatchery sanitation. (Wright, Anderson, Epps) Abstract 486
Hepatitis in turkeys, An infectious agent producing. (Snoeyenbos, Basch, Sevoian) 377
Hepatitis, Virus, in turkeys (Mongeau, Truscott, Ferguson, Connell) 388
Infectious sinusitis, Egg transmission of, following inoculation of turkey breeders in egg production (Jerstad, Hamilton, and Smith) 105
Infectious sinusitis in experimentally infected turkeys, The clinical course of (Jerstad, Hamilton, and Smith) 114

Infectious sinusitis in naturally infected turkeys, Measurement of pathogenicity (Jerstad, Hamilton, and Smith) 28
Infectious synovitis, avian, Immunity studies on (Cassidy and Grumbles) 126
Infectious synovitis, Control of, 8. Degree of infection as influenced by medication with furazolidone and chlortetracycline (Olson and Shelton) 312
Infectious synovitis, The infectivity of blood and tissues from chickens with, (Benton and Cover) 361
Infectious synovitis, The influence of dietary calcium, phosphorus and terephthalic acid on antibiotic control of experimental (Price and Zolli) 135
L-forms, Studies on bacterial I. A method of identification (Gentry) 175
Laryngotracheitis, A slide smear technique for the diagnosis of (Armstrong) 80
Newcastle disease, Studies of, II. Evaluation of two killed Newcastle disease vaccines (Legenhausen and Sinkiewicz) 3
Newcastle disease, Studies of, II. Further studies of killed Newcastle disease vaccine (Legenhausen, Sinkiewicz and Sullivan) 12
Nomenclature and reporting of diseases Northeastern conference on avian diseases June 1959, Report of the committee on (Angstrom, Chute, Cover, Snoeyenbos) Abstract 488
Ornithosis agents for mice, Measurement of pathogenicity of turkey (Page) 23
Ornithosis in turkeys, Experimental (Page) 51
Ornithosis virus of low virulence, The susceptibility of a, to antibiotics (Gale) 170
Pasteurella anatipestifer infection in White Pekin ducks, Studies on. (Price) Abstract 486
Pasteurellosis, Studies on. III. Control of experimental fowl cholera in chickens and turkeys with an emulsified killed vaccine. (Heddleston and Reisinger) 397
Phosphorus, The influence of dietary calcium, and terephthalic acid on antibiotic control of experimental infectious synovitis 135
PPLO in chickens, Studies of egg transmission of, Fabricant, Levine, Calnek, Adler, and Berg) 197
PPLO in semi-solid media., Morphological studies of avian, (Domermuth and Gross) 452
PPLO injected into eggs previously dipped in antibiotic solutions, Survival of, (Chalquest and Fabricant) 257
PPLO, Swine serum and CO_2 in the isolation of avian. (Fabricant) 428
Pullorum disease testing results for the northeastern conference on avian diseases, Report on the. (Van Roekel) Abstract) 494
Quail bronchitis virus, The relationship between, and chicken embryo lethal orphan virus (DuBose and Grumbles) 321
"Quail Disease"., An anaerobe, the cause of ulcerative enteritis (Peckham) 471
Salmonella and Arizona organisms in animals, Serotypes of. 1958 (Moran) 440
Salmonella in animals: A report for 1957 (Moran) 85
Salmonellla organisms in animal products used in poultry feeds. (Watkins, Flowers, Grumbles) 290
Salmonella pullorum and *Salmonella heidelberg* typing results in 1958. (Burr) Abstract 487
Salmonella pullorum, Typing of. The influence of methods on results. (Bruner) 373
Salmonella typhimurium infection in an egg-producing chicken flock, Detection of. (Smyser, Van Roekel) Abstract 485

Tapeworms, Egg characteristics as aids in species identification and control of chicken (Reid) 188
Terephthalic acid, The influence of dietary calcium, phosphorus and, on antibiotic control of experimental infectious synovitis (Price and Zolli) 135
Terephthalic acid, The influence of, on oxytetracycline serum levels in chickens (Price and Zolli) 157
Transaminases and dehydrogenases in chicken plasma. (McDaniel and Chute) 407
Ulcerative enteritis, An anaerobe, the cause of, "Quail Disease". (Peckham) 471
Viruses, Avian enteric cytopathogenic. I. Isolation (Burke, Luginbuhl, Jungherr) 412
Viruses, Avian enteric cytopathogenic. II. Characteristics of a prototype (Burke, Luginbuhl, Jungherr) 419
Viruses, The isolation of, from the cecal tonsils of chickens and turkeys (Matischeck, Mitrovic, Rumsey and Hobert) 182
